

Georgian-German Common Institute of Basic Science (GGCIBS)

May 2010 | Hans Ströher

- A structure to promote basic science in both of our countries with contributing partner residing in different locations
- Partner institutions in Georgia and Germany
 - GTU and TSU
 - FZ-Jülich (ICG, IKP, ZAT)
 - ...

Open to all other interested institutions !

➤ Video-meetings

via “EVO”, a Web-based Conferencing Tool

(little hardware necessary:
computer, beamer, internet access)

→ regular analysis, cooperation and
planning meetings

- Video lectures
- Exchange of lecturers (every year)
 - 2+ wk block courses during summer and/or winter semester

M. Büscher: Lasers in Particle Physics

D. Gotta: Exotic Atoms

C. Hanhart: Hadron Physics

➤ Bi-annual workshops

CGSWHP'04 (Tbilisi)

CGSWHP'06

CHSWHP'08

CGSWHP'10

...

GGSWBS'12

- Student exchange program (any time)

Example: IKP

Irakli Keshelashvili → Basel University

David Chiladze → still FZ Jülich

Archil Garishvili → Tennessee (USA)

David Mchedlishvili → still FZ-Jülich

... (add more / new names!)

➤ Formal procedure ... may take longer

within FZ-Jülich ...

include BMBF

should be pushed from Georgian side

Let us start this NOW !
