

Letter of Intent
between
Institut für Kernphysik of Forschungszentrum Jülich (Germany)
and
Batumi Shota Rustaveli State University (Georgia)

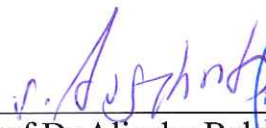

Based on the concept of the “Georgian - German Science Bridge” (GGSB), which aims at fostering the cooperation between scientists and engineers of Georgia and Germany as well as to organize common educational programs for students and to exchange scientific equipment, the *Institut für Kernphysik* of *Forschungszentrum Jülich* and the *Batumi Shota Rustaveli State University* intend to start and promote a cooperation on the following subjects:

- Research in fields to be defined in a forthcoming Memorandum-of-Understanding;
- Exchange of master and PhD students, e.g. within the Joint Call of *Forschungszentrum Jülich* and the *Shota Rustaveli National Science Foundation*;
- Bi-annual scientific workshops and student schools on common items.

Date: 13/8/2012

Prof. Dr. Dr. h.c. Hans Ströher
Managing Director,
Institut für Kernphysik
Forschungszentrum Jülich

Prof. Dr. Aliosha Bakuridze
Rector
